

Dear \${FNAME|Customer|Guest} \$,

After over a year in development, we are getting ready to release the all new iKnow Church Finance module which is packed with features to help your church accept donations and claim Gift Aid.

As part of this update we are upgrading the payment processor we are using and need all Churches that currently use the iKnow Finance module or are wanting to use the new Finance module, to go through the setup process.

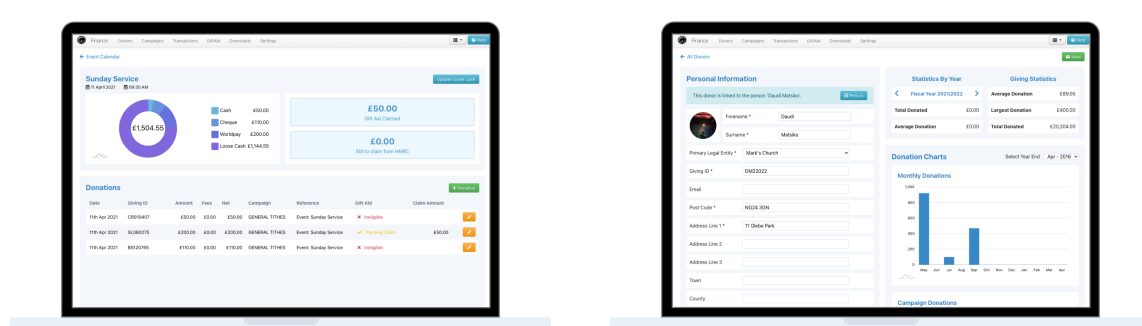

This can be easily done by going to the existing Finance module and clicking on the 'Set Up Now' in the yellow bar at the top.

We've created a 5 minute video which explains the process for setting up in preparation for the new Finance module.

[Watch Now](#)

**Please note:** If you are currently using the Finance module then you *must* complete the set up process by 15th December 2021.

Keep an eye out for an email in early 2022 with full details about the new Finance module and our Webinars introducing the new features available.
